VOL. XXI.—NO. 6206 PORTLAND, OREGON: TUESDAY, MARCH 8, 1881. PRICE—TEN CENTS

WASHINGTON CITY.

Fight on Senate Reorganization in Prospect.

GARFIELD WILL PUT "NEW BLOOD" INTO THE DEPARTMENTS

Mahone Takes a Seat with the Republicans, but Declines to Enter Either Party Caucus—The New Ministers Assume their Duties.

[SPECIALLY TELEGRAPHED TO THE OREGONIAN.]

WASHINGTON March 7—The town is rife with rumors and gossip to-night about the expected new distribution of important offices. Most of the rumors cannot be traced to any foundation except the wishes of self nominated candidates. Some others which seem to be well founded are as follows: Levi P Morton has accepted the French mission and will be nominated at once. Ex Gov Noyes, of Ohio, present incumbent has already tendered his resignation. Ex Secretary Evarts can have the English mission if he wants it, but there are doubts of his acceptance. Senator Hoar has requested the retention of Minister Lowell at Madrid and he will not be disturbed. No change will be made at present in the Austrian mission, but Minister Kasson will resign during the summer in order to come home and attend to his canvass for the speakership of the next house of representatives. It is rumored that Gen Schofield, of Pennsylvania, now register of the treasury will be appointed minister to Russia and that Hugh Young of Pennsylvania, a brother of Gov Tom Young, of Ohio will succeed him in his present position. Report says that Edward McPherson will be appointed first assistant postmaster general to succeed Tyner, but he may prefer to resume his former place as clerk of the house of representatives. Gen Chas Ewing, brother of Gen Tom Ewing, is urged for the governorship of New Mexico. There are three candidates for the vacant judgeship in the U S court of claims: ex Private Secretary Rogers, Col John Hamilton of Kentucky and ex Congressman Sheldon of Louisiana, now of Ohio, who was spoken of as Gen Garfield's private secretary and who came to Washington with the presidential party. Judge Cooley of Iowa is said to have a good chance for being appointed to fill the vacancy in the U S supreme bench and the Illinois delegation will press Judge Drummond. Wm E Chandler is talked of for various important positions but will probably be appointed solicitor general, the place next to attorney general in the department of justice. It is believed that there will be quite a number of changes of bureaus of the different departments. Gen Garfield said last evening while talking upon this subject that he intended to make changes as the service would be improved by so doing. He intended he said to put a good deal of new blood into the Washington departments.

Official Nominations.

WASHINGTON March 7—The president nominated ex Secretary Nathan Goff Jr U S attorney for West Virginia

Judge Bancroft Davis, formerly minister to Berlin will accept the assistant secretaryship of state. Wm E Chandler was not offered the place

The New Cabinet on Duty.

With the exception of Lincoln all the new cabinet officers qualified this morning at the executive mansion before Judge Carter. They will take charge of their respective departments this afternoon

Members of the cabinet of ex President Hayes with the exception of Senator Sherman, assembled at the executive mansion at half past ten this morning, as also their successors except Secretary Lincoln. President Garfield signed the commissions of his immediate advisers, and detained them a short time after the cabinet officers of the previous administration had retired. Before retirement of the ex cabinet officers however, a half hour was spent in social intercourse, during which Garfield requested the old members to give the newly appointed ministers all the information pertaining to their respective departments. The new cabinet formally organized. With the exception of Postmaster General James the new members qualified before Chief Justice Carter of the supreme court of the District of Columbia. Secretary Windom arrived at the treasury department shortly after one o'clock. He will enter upon his duties to-morrow. Secretary Windom received the officers of the department and attended to other matters preparatory to assuming full control. Attorney general McVeagh assumed charge of his department. A great many people called on President Garfield to-day

At 3 P M Blaine formally assumed the duties of secretary of state and received the several heads of the bureau. Judge Hunt entered upon his duties as secretary of the navy this afternoon, dispensing with all formality, not even making his presence in the department known until the chief clerk upon entering the secretary's room found him sitting at his desk. He afterwards received ex Secretaries Thompson and Goff, who remained in conversation with him half an hour or more

Gen. Devens Retires.

Ex Attorney General Devens took leave of the supreme court to-day and introduced his successor Wayne McVeagh

Democratic Senatorial Caucus.

The democratic caucus has determined to continue the organization of senate committees and Hill of Georgia, Pendleton, Lamar, Harris, Farley, Ransom, Garland, Davis of West Virginia and Cockrell, the committee appointed to arrange standing and select committees being not ready to report, another caucus was held after the session adjourned and is still sitting. They will probably report to-morrow and the republicans will be asked to fill the minority. It was the unanimous opinion of the caucuses that business should be expedited by arranging committees at once

Senate Talk.

The funding bill is mentioned as a reason for an extra session. The democrats intimate that they can adjourn in a few days, leaving democratic supremacy to stand until December. If this is done the Chinese treaty will not be taken up by the senate until acting on business sent in by the president. The republicans will unless assured that Mahone will act against them, attempt to upset this arrangement with the new members elected. Mahone was at the capital to-day with Don Cameron, but informed neither side of his purpose. Probably the republicans will refuse to arrange the minority and the democrats will then leave the republican membership the same as at last session

If the democratic senators still insist on immediate organization the republicans will abstain from voting. The question will then arise whether a quorum of the senate consists of a majority of senators holding seats or of a majority when all seats are filled. There are now 37 democratic senators, 33 republicans and 2 independents, namely Judge Davis and Gen Mahone. If therefore, it be decided that a quorum consists merely of a majority of those holding seats or if both independents vote on the question of adopting a list and thus make an indisputable quorum the republicans will have to accept the committee representation assigned them, but in this event they will endeavor to reorganize the senate if it be in session after the four vacancies are filled, provided the positions which may be taken by the independents shall by that time afford them a reasonable chance of success in regaining the contest for control. It was suggested at the republican caucus to-day that the president should hold back nominations until the [illegible] prevent adjournment to December which might otherwise be ordered by the majority after securing control of the [illegible] transacting the necessary business at this [illegible] the consideration of various pending treaties. Mention is also made of the power of the president to reconvene the senate in the event of adjournment as often as he may deem proper

The democratic caucus committee, appointed Saturday to arrange majority representation on the senate committees have held several meetings and expect to complete their labors in time to report to the caucus to-morrow. Senator Mahone has received invitations both from democrats and republicans to participate in their respective caucuses but has not attended either.

Senate Chairmanships.

The caucus committee report will maintain the old committees as far as changes will admit. Bayard will be chairman of the finance committee, Davis of Illinois of the judiciary, Johnson, of foreign relations, Jones of Florida, on public lands, Slater of agriculture, Cockrell of military affairs, Hampton, of mines, Groome of pensions and the other principal committees will have the same chairmen as before. Several of the new democrats will get chairmanships

Mahone Sits with the Republicans.

Immediately after reading the journal in the senate to-day Senator elect Mahone of Virginia, was sworn in subscribing to the modified oath. He took a seat upon the republican side. On motion of Pendleton the senate adjourned till to-morrow

The Republican Caucus.

The republican caucus in the forenoon discussed organization and agreed that it ought to be postponed until all vacancies are filled. It was held that complete organization cannot be effected until vacancies are filled. After the senate adjourned the republican caucus again met and it was stated positively that the democrats were determined to go ahead with the organization. This intention was severely criticised as taking an unfair advantage, and the republicans determined to attempt to reorganize when the vacancies are filled. It was stated that the new senators to succeed Carpenter and the cabinet ministers would all get here by the last of next week, and it was agreed that the republicans oppose any organization before then. An extra session of congress was also discussed and favored. It was said that if the democratic senators take the present advantage to control the senate, by the extra session the republicans can probably easily get control of the committees of both houses

To the Memory of the late Senator Carpenter.

WASHINGTON, March 7—A meeting of members of the bar of the United States supreme court, ex Senator Thurman presiding, was held to-day and suitable formal expression given of regret for the death of Matt Carpenter. Among those present were Senators Conkling, Jones of Florida, David Davis, Bayard, Lamar, Garland, Hawley, McMillan, Blair and Dawes, Representatives Robeson, Lapham, Chapin and Tucker, Judge McArthur, Jere S Black, District Attorney Corkhill, J M Wilson and R J Merrick

The New Steamboat Regulations.

The solicitor of the treasury has rendered an opinion on legal points presented in connection with the recent change in rule 10 in the rules and regulations of steamboats which relates especially to space at the sides of boilers. The solicitor says that there is nothing in the rule which prohibits the board from requiring more space than that mentioned in rule 7 if in their judgment it may in any case be necessary to require it

Decision in the California Mine Election Case.

Judge Sullivan to-day rendered a decision on mining companies elections which will have an important bearing on the control of the Comstock mines. Several weeks since application was made to set aside the annual election of the California mining company held in January last on the ground that a majority of the stock was not present or represented at such election. At a hearing last Saturday it was proven that over 400 000 shares were represented to be present, of which 2[illegible] shares only were voted by owners and the balance on proxies, over 200 000 shares being voted on proxies given by bank clerks, one of whom on being put on the stand testified that he did not own any stock for which his proxy was given. Counsel for the company objected to the inquiry as to actual ownership as the company's books alone were evidence. The court decided to-day that query could go behind the books to ascertain the ownership of stocks and that under the statute the actual owners only of stock could vote. This will put a stop to the manipulations of mining companies through the means of proxies which has led to great abuses and parties hereafter desiring to control the companies must own a majority of the stock

GENERAL NEWS.

Hayes Pleased with the New Cabinet.

PITTSBURG March 7—In an interview this afternoon ex President Hayes said that he thought President Garfield would continue his (Hayes') policy in his appointments, and expressed himself highly pleased with the new cabinet

Homeward Bound

CLEVELAND March 7—Ex President Hayes and family arrived to-night from Pittsburg by regular train somewhat late and quietly went to the residence of L Austin, Mrs Hayes' brother in law and retired early, being fatigued. They will leave to-morrow afternoon for home, Fremont, where preparations have been made for a public reception

Secretary Lincoln Starts for Washington

CHICAGO March 7—Robert T Lincoln the newly appointed secretary of war leaves to-morrow morning for Washington to assume the duties of that portfolio. His wife who is the daughter of ex Senator Harlan of Iowa accompanies him and their three children will follow in a few days

An Alarming Statement.

The Chicago Lumberman's Exchange held its annual meeting to-day. The president's address contains the startling statement that owing to the enormous growth of the lumber business it will take only 20 years to exhaust the great pine forests of this country if the present rate of depletion continues. The receipts of lumber of all kinds at this port during the year 1880 were 1 564 000 000 feet

Pork in the West.

ST LOUIS, March 7—The board of trade here, as in Chicago, has adopted a resolution, declaring that there is no epidemic or malignant disease among hogs and that swine are freer from disease this year than ever before, and that all reports to the contrary are unfounded. A statistical committee was appointed to inform the British minister at Washington

A Model Reformer.

TOLEDO, Ohio March 7—C A Reimenschneider a prominent member of the late general reform party which elected him treasurer and secretary of the city water works has absconded for Europe, leaving a deficit of from $6000 to $10 000

Diamonds Stolen

Charlotte Thompson, an actress, when about to leave town last night, discovered that her jewel casket with diamonds valued at $15,000 was missing. No clue

Strike at Springfield, Illinois.

SPRINGFIELD March 7—One thousand iron workers are out of employment by a strike at the rolling mills which was begun to-day. The company will fill their places with workmen from abroad

Sale of a Celebrated Pacer.

ST LOUIS, March 7—Robert C Bates of this city sold his famous pacing mare Mattie H Hunter to-day to John Splan, who gave an order on C. F. Emery of Cleveland for the purchase money, $14,000

The Through Line

It is unofficially announced that the Atchison, Topeka & Santa Fe railroad made connection with the southern Pacific Saturday last

Fatal Row in Ohio

CINCINNATI March 7—Edward Young, son of a prominent attorney of Georgetown, Ohio, shot and killed George Ashmore at about 10 o'clock Saturday night and seriously if not fatally wounded James Ashmore and Clinton Campbell. Young and James Ashmore had previously had several quarrels. The two Ashmores and Campbell were drunk and forced the quarrel

A Fatal Wave.

NEW YORK March 7—The brig Emma J Hall from Cardenas reports that during a gale February 27th, she shipped a sea which swept overboard the first and second mates who were drowned. The captain was badly injured and the vessel sprung a leak

The Cincinnati School Board Denounced

CINCINNATI March 7—Rev F [illegible] Wendell of the Unitarian church yesterday in a sermon denounced the school board of Cincinnati as composed principally of men of low mental culture and social standing

Suicide.

ST LOUIS March 7—Louis C Ross, contracting agent for the Wabash railroad, committed suicide this morning with a pistol. Cause nervous depression

Steamer Burned.

MEMPHIS March 7—The steamer Carrie Hogan with 786 bales of cotton, was burned to-day in the Yazoo river. A cabin boy was drowned

Death of Mrs. Churchill.

PROVIDENCE, March 7—Mrs Elizabeth K Churchill, widely known as a speaker and writer in behalf of the rights of women, is dead

A Revised New Testament.

NEW YORK, March 7—A revised new testament will be published by the English university presses in May next in different sizes and styles of binding at corresponding prices

Conference of Railroad Men

OMAHA March 7—It is asserted that General Manager Kimball, General Freight Agent Vining, and General Ticket Agent Stebbins of the U P went to Topeka to-day to hold a conference with officials of the new Southern Pacific route, the object being to arrange a friendly basis of doing business and agreeing upon passenger and freight rates or in other words to form some sort of a pool. The new southern route will have rail connection completed by the 15th of March

The Walking Match.

NEW YORK, March 7—Midnight—Rowell 144, Albert 102½, Vaughan 115, O'Leary 94½. Albert has strained a tendon and his trainer is working on him. Rowell says he will go 600 miles during the week if possible. He is only [illegible] miles behind the best record for [illegible] hours. Vaughan is only one quarter of a mile behind the best record for a walker

A Big Thing for San Diego

NEW YORK March 7—The Times editorial says: Certain Boston capitalists who are largely interested in the prosecution of railway enterprises in Colorado and the Southwest are said to be actively engaged in a scheme for making San Diego the most southerly seaport of California, the entrepot for a vast system of trans continental railway traffic. It is by no means the first time that the ancient town of San Diego has been made the [illegible] crow for San Francisco. One would suppose from the animation which this new scheme has infused into railway circles, that San Diego had just been discovered. As a matter of fact San Diego has long been threatening to snatch the palm of commercial security from San Francisco [illegible] isolated and poverty stricken town. Nothing short of being made a [illegible] railway terminus will revive its ancient splendor

A New Book of Science

Howard in a book review says the famous Dr Joseph Leconte, L L D, president of the University of California, is a sufficient guarantee of the excellence of a new volume of the International Scientific Series just published by Appleton in which that eminent physician furnishes a complete and readable account of all that is known of sight giving. His chief attention is given to an exposition of the principles on monocular and binocular vision. Dr Leconte's monography is especially notable for its clear and full development of the subject of binocular vision which has been unduly neglected by previous writers on optics

Pedestrianism.

NEW YORK, March 7—The pedestrians' score at 5 A M was Rowell 66, Albert 72, O'Leary [illegible], Vaughan, 48

A Printer Robbed.

CHICAGO, March 7—A bold highway robbery was committed on the west side last night, the victim being a German printer formerly from Leavenworth, Kansas, named Chas F Kurzer, who arrived Saturday with a large amount of money and put up at a dilapidated boarding house where he fell in with six ill visaged men who upon pretense of showing him the town knocked him down in the street, secured $1397 and escaped

The Great Snow Storm.

The trains are still weather bound in nearly every part of Wisconsin, Minnesota and Iowa and northern Illinois. Even milk trains from the neighboring dairy towns are stopped and there is not a little trouble in hotels in private houses and in restaurants. Snow plows are running in every direction, and large gangs of shovelers are busy working them. In the city the snow is so piled up that foot passengers on the sidewalks cannot see those who walk on the other side. It is however, slowly melting

A Strike Imminent.

SPRINGFIELD, Ill, March 7—A special says there will doubtless be a serious strike in the rolling mills to-day

BY ATLANTIC CABLE.

Progress of Negotiations with the Boers.

NINE SHIPWRECKS ON THE COAST OF SCOTLAND

Evacuation of Candahar and Surrender of the "Scientific Frontier" by the British—The Great Earthquake, etc., etc., etc.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEWCASTLE March 7—Gen Sir Evelyn Wood went to Mount Prospect to-day and subsequently had an interview with Joubert which resulted in an armistice till the 14th. Rumors of peace are rife about the camps but I learn that it is improbable unless we agree to all the Boers terms. These are: The complete independence of Transvaal, in fact all they ask for, and amnesty. By the armistice permission is granted to send provisions for eight days to the beleaguered garrisons

A Treacherous Escort

DURBAN March 7—Dr Bartle and Dr Dyas while being escorted from the Transvaal to Orange Free State were fired upon by Boer escorts after they reached Free State. Dr Bartle was killed and Dr Dyas wounded. The affair was similar to the murder of Captain Elliott. Sympathizers from Orange Free State have been [illegible] reported to be raiding wagons on the road to Natal

The Armistice Proclaimed

LONDON March 7—Gen Wood has sent a dispatch to the president of Orange free state notifying him of the armistice. It is reported that Brand has gone to Laing's Nek to promote peace negotiation

Report Confirmed

LONDON March 7—In the house of commons Gladstone confirmed the report of the conclusion of an armistice with the Boers until the 14th inst in order to give time for a reply from Paul Kruger to Gen Colley's and subsequent communications made with a view to peaceful settlement of affairs

Amsterdam Sympathizes with the Boers

LONDON, March 7—At a meeting in Amsterdam Saturday speakers pointed out that the demonstration was not directed against England but that the meeting was held to sympathize with the Boers. Resolutions were passed expressing hope that the Boers would obtain their independence and the Dutch government would do all in its power to procure peace

The Storm on the West Coast of Europe

LONDON, March 7—The snow storm in Scotland has now abated but it will be some days before railway connection is restored. About 9 vessels were lost on the Aberdeenshire coast and 100 persons drowned. The ship Ben Rhidding from Calcutta to Dundee was wrecked near Aberdeen and 20 persons drowned. Two or three small vessels were lost with all hands on the coast of Northumberland

An Open Declaration

LONDON March 7—A Paris correspondent of the Times says: The Dominican minister requests me to state that his government does not intend to cede the port of Samana to the United States or recognize a debt to St Domingo

Land Leaguers.

LONDON March 7—The Dublin correspondent has reason to believe the [illegible] will not [illegible] to arrest leaders of agitation as well as [illegible]. Brennan, Secretary of the Land League has arrived at Dublin

The Arms Bill

LONDON March 7—The house went into committee on the arms bill this evening. Several home rule amendments were offered. An amendment that persons suspected of carrying arms shall be arrested and taken before a magistrate instead of being searched by the police was inserted in the bill

Various answers to questions in parliament to-day show that the government have approved of Gen Sir Evelyn Woods action relative to an armistice with the Boers. During the duration of the armistice both parties promise not to make any forward movement but retain liberty to move within their own lines. Provisions but no ammunition is to be sent to the garrisons. Joubert undertakes to inform the garrisons of the armistice and will use his influence to induce the Boer commanders to permit the removal of the British wounded in the garrisons to Natal. Joubert also undertakes to pass provisions for the beleaguered garrisons through the Boer lines. On the arrival of provisions at the garrisons the [illegible] and besieged parties are to suspend hostilities for 8 days

English Exports and Imports.

LONDON March 7—Imports for February [illegible] £[illegible]400 000 and exports [illegible] last year

The Crack Shots

LONDON March 7—A pigeon shooting match has been arranged for the 11th inst between Dr Carver and a member of the gun club who will [illegible] under the assumed name of Rover

The Casamicciola Earthquake

LONDON March 7—The following are additional details of the earthquake at Casamicciola on the island of Ischia. The first shock occurred at 1:30 o'clock Friday afternoon and the second an hour later. The whole upper part of the town was destroyed and two thermal establishments were seriously damaged. Details confirm the damage to property, loss of life and injury to people previously mentioned. The syndic and sub prefect are directing operations for the recovery of the bodies of victims. The royal steamers Nagana Esguna and Esploratore have arrived from Naples with soldiers and physicians. The soldiers rescued many from the ruins. The population have fled to the surrounding country and along the sea coast, the government sending food from Naples. The King and minister of the interior sent contributions for the relief of the sufferers. The second and fatal shock lasted seven seconds, accompanied by a noise like a subterranean thunder. Then came the crash of falling houses, accompanied by shrieks of the victims. It is probable that the loss of life will reach 100. Damage to house property 10 000 francs

France and Venezuela.

PARIS March 7—The government has resolved to recall the French representative in Venezuela in consequence of twenty years bad faith to French creditors by the government of that country

Afghanistan

CANDAHAR March 7—Preparations for evacuation by the British are proceeding. Abdurrahman Khan is making preparations which seem to indicate the intention of trying to occupy Candahar when the British have left. The departure of the British will probably be the signal for a sanguinary struggle between Ayoob Khan and the ameer Abdurrahman Khan

CALCUTTA, March 7—By the 18th inst Jamrud will be the last advanced British post towards Khyber pass. The hill garrison has been reduced to a mere outpost of 60 miles. The remains of Kuram field force have been removed to Jogh. Thus the scientific frontier which it cost so much to gain will in a few days, so far as northern Afghanistan is concerned, be a thing of the past. It is all but the universal opinion of the Indian public and press that the government will before long have bitter cause to regret its hasty retreat

The Plague in the East.

ROME March 7—Thirty persons have died of the plague in Kerbela, Nedjeff and Djassan in the province of Bagdad. Precautions have been taken to localize the epidemic

Still another Snow Storm at Omaha

OMAHA March 7—Snow began falling again early this morning and has continued all day without cessation. Four inches have fallen during the day. All railroad trains arrived and departed on time. The weather is calm and warm. Meager advices received here state that the Republican river in Southern Nebraska is rising rapidly and doing much damage. It has been warm in Colorado where the river rises and also in western Nebraska and ice gorges have formed which have swept away all the bridges on that stream in Nebraska. Indications are that a former flood will come down the Missouri when the thaw sets in. Tongue river continues rising and the Missouri is on the rampage and may start the ice to breaking in the Missouri

OUR EXPORTS.

It is certainly gratifying to all true Americans to know that of late years our exports have largely exceeded our imports not alone in such staple articles as wheat and beef, but in almost every branch of industry. Ten years ago nearly all the perfumery and toilet articles used in this country were imported from Europe. To-day we not only manufacture them ourselves but are large exporters to South America, China, Japan and the Colonies. The growth of this particular industry on the Pacific Coast is simply astonishing. Steven, who is now one of the largest cologne makers in the world, last year exported some 1 000 000 bottles of his famous Yosemite cologne. For sale by Woodard, Clarke & Co, Portland Oregon

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

Having purchased the East Portland Planing Mills, located corner [illegible] and Third Sts., East Portland, by the addition of new and improved machinery and additional power, we are enabled to offer equal advantages with any dealers in Portland, in the line of Doors, Windows and Blinds, Moldings, Brackets, Frames, etc. We shall be prepared to furnish contractors and dealers estimates on all kinds of mill work. We have engaged the most skilled mechanics, and shall aim to furnish a better class of work than has ever before been furnished in Portland. Our arrangements will enable us to give the most favorable terms and prices. All regular sizes carried in stock. Catalogue and prices furnished on application.

F. E. BEACH & CO.,
103 Front Street, Portland.

A GOOD WATCH FOR $5.

We have just received, direct from the manufacturers, an invoice of the celebrated Waterbury Watch, which we offer at the low price of $5 each. This is not a toy but a real Stem Winding Watch, strong and durable in all its parts, and calculated to do good service for years—a Watch too simple in its construction to be likely to get out of order—the parts of which are interchangeable and can be replaced at a trifling expense, if broken. Mailed to any address on receipt of price. A liberal discount to the trade.

DAYTON, HALL & [illegible]MBERSON,
Sole Agents for the North Pacific Coast.

ENTIRE CHANGE.

Having just completed marking our goods at a

GREAT REDUCTION,

We are now prepared to offer our entire stock, which is complete in all its departments, at

SAN FRANCISCO'S LOWEST PRICES.

Why we have made this grand change is

1st. We are disposing of our retail business in San Francisco to make Portland our headquarters.

2d. Nearly all the desirable goods have been shipped up here to be sold.

3d. We have better facilities this year than ever before.

4th. We mean to lead the trade in our line, if the LOWEST prices for the BEST goods will bring it.

REMEMBER,

It is a pleasure, and not trouble, to show goods, when our prices invite opposition, but defy competition.

IN OUR

GLASSWARE DEPARTMENT

We have really done wonders, having reduced the entire line 50 per cent. This is no humbug, but come and be convinced. We are to-day giving more Glassware for one dollar than any other house in town for two dollars.

Having an extraordinary large stock in the above line, we feel justified in saying that we can satisfy the poor and rich, having cheap, medium and the very best Glassware made.

FOR OUR

CROCKERY DEPARTMENT

We can only repeat the above facts,

FRENCH CHINA.

We have just received, direct from France, 25 casks of that celebrated I. Haviland & Co. ELITE CHINA, the very best goods ever imported to this country, which we offer at a great reduction from former quotations.

We have entered into a large contract with the leading

BABY CARRIAGE FACTORY

East, which enables us to give a better carriage for the money than any other house on the coast, being of our own and direct importation.

OUR CUTLERY

Has been greatly reduced. We carry none but the BEST.

RUSSELL & CO'S GREEN RIVER CUTLERY.

LAMPS AND CHANDELIERS

We have marked down full one-third.

ALL OUR SILVERWARE AT A GREAT REDUCTION.

Desirous of LEADING the TRADE in our various branches, we have firmly concluded on Large Sales and Small Profits. A call will convince all that only FACTS are stated, and a cordial invitation is now extended to the public of Portland and vicinity to inspect our goods after the great change in prices.

TUESDAY MORNING MARCH 8 1881

OUR VAST FOREIGN TRADE

The mails bring us official reports of the foreign commerce of the United States for the month of December and for the year 1880. After entering largely into analysis of the returns and comparison with those of preceding year the New York Tribune finds results which it designates as startling and the term seems [illegible] means a strained or extravagant one. The summary shows that the value of domestic exports in December last was $[illegible] 079 [illegible]30 while the largest amount ever exported in any month before was about $80 000 000. The gross exports of merchandise were $[illegible] against $87 733 [illegible] in October 1879 then the largest monthly exports on record. The aggregate for the calendar year was $889 619 840 against $[illegible] 825 in 1879 an increase of $121 [illegible]. On the other hand the value of imports in December though a little larger than for November was smaller than for any other month in 1880 or since September 18[illegible]. The high tide of imports which began coming in during the summer of 1879 has been rapidly receding ever since April 1880 when the value of imports was $74 366 [illegible] and in November it had fallen to $47 108 269. In December with two more business days it was only $47 372 788. Thus the excess of merchandise exports over imports which was less than $1 000 000 in May last, rose in December to $[illegible]1 453 844 a balance never before equaled. For the calendar year the excess of exports of merchandise over imports was $192 846 467 which falls $[illegible]8 700 000 below the excess in 1879 but is nevertheless quite large enough to remove the possibility of exports of specie for some time to come. The specie movement during the year was [illegible] more favorable than that of any other calendar year in the history of the country. The excess of imports over exports was $69 229 822 against $67 375 [illegible] in 1879.

The naked figures given in the official reports interesting as they are do not cast much light upon the question of most general interest namely whether there is reason to expect that the foreign markets for American products will enlarge in proportion to the increase of productive capacity in this country. But the Tribune proceeding with its analysis notes it as an encouraging fact that the exports of the more important products were not only large in the first half of the year when Europe was sorely pressed by an extraordinary failure of crops but were even larger on the whole in the last half of the year when the immediate wants of Europe were met by crops fully up to the average. As to breadstuffs it is true this is not the case the value of exports of that class for the fiscal year ending June 30 was nearly $35 000 000 larger than for the calendar year ending December 31 and only a part of this difference was due to the decline in prices. Yet it is surprising on the whole that shipments of grain have been made at a profit during the last half of a year of good crops in Europe so closely approaching in value and in quantity the exports during corresponding part of a year of unprecedented destitution in Europe and so greatly exceeding the largest exports ever known in any half year prior to that time. The facts clearly indicate that the permanent dependence of Europe upon this country for breadstuffs is steadily and surely increasing, that agriculture in Europe is becoming less able to supply the needs of the population and that we may reasonably expect whether crops abroad are good or bad to be able in future to find a market for a greater quantity of breadstuffs than had ever been expected in any year prior to 1879.

The tables also show that the exports of cotton were in quantity the largest ever made in any year. Though the exact figures are not yet published it is estimated that more than 2 00[illegible] 000 000 pounds of cotton were sent abroad last year and the value realized exceeds the amount received for sales of cotton in any year except 1866 when the price was abnormal. The exports of provisions for the year have been fully reported and amount to 1 761 147 99[illegible] pounds the value being $14[illegible] 723 0[illegible]. The large increase in value, in comparison with the previous year is due in part to an increase of 11 per cent in the quantity exported, and partly to an increase of 19 per cent in prices obtained. Evidently the foreign demand for American provisions was so great as to have a powerful influence upon prices here. There is nothing to indicate that this demand is likely to diminish materially on the contrary it grows steadily like the demand for breadstuffs and the advance in price indicates that the demand treads closer upon the heels of the supply. The exports of petroleum were smaller in quantity by 16 per cent than in 1879 but the decrease in value was only 5 per cent which is not a discouraging symptom to producers. Exports of these four classes amounted in 1880 to about $6[illegible] 000 000 leaving about $200 000 000 for the value of other exports of domestic products. As those other products were exported in 1879 to the value of $181 600 000 it follows that there was also an increase of about 10 per cent in the exports other than those of the four classes mentioned.

To the favorable picture of our foreign trade thus presented there is one drawback. Nearly all this vast commerce was carried in foreign vessels. The merchant marine of the United States figures insignificantly in the total and is still dwindling year by year. The profits of this vast carrying trade go almost wholly into foreign coffers and strange to say our legislation is so little ruled by intelligence that though the causes of this decline of our shipping are right on the surface of things congress evinces no actual comprehension of the subject and makes no real attempt to shake off our mediæval policy and institute a modern and rational one.

To be even with the white leaguers of Mississippi and Louisiana the colored people of Virginia, taking pattern after the Irish agitators have formed a black league, the object of which is to force land owners to work their land on shares and the leaguers pledge themselves not to work for any land owner for wages and to prevent others from doing so. It is feared they will engage in "Boycotting" in order to carry their point. The land owners are thoroughly alarmed and are organizing on the other hand and pledging themselves not to rent land to colored men. The land owners declare that rather than yield they will import white laborers from the north and from Europe. It is much easier to resolve to do such a thing than to do it. Both parties are manifestly in the wrong and the best thing they can do will be to drop both organizations and leave every man white and black at liberty to do the best he can with his land and his labor.

In the present legislature of Tennessee neither the repudiationists nor the debt payers have a majority, so that it is probable a compromise will be effected at fifty cents on the dollar and 4 per cent interest. The creditors of the state will have to stand a share of the other fifty cents. The prevailing impression is that the failure to make this compromise is likely to be followed by a repudiation of the whole debt.

Senator Mahone of Virginia real [illegible] upon entering the senate yesterday took a seat upon the republican side of the house. Whether this was because there was more room on that side or an indication that he will vote with the republicans or was merely accidental and without any significance whatever is what no fellow can find out.

The name of the new attorney general of the United States is Wayne McVeagh not MacVeigh as a compositor yesterday persisted in putting it in spite of the combined efforts both of editor and proof reader.

TUESDAY MORNING, MARCH 8 1881

CITY.

SIGNAL SERVICE FOR ALASKA.—Mr John G McLean of Washington D C arrived here by the Columbia and leaves this morning for Port Townsend en route to Alaska. Mr McLean comes under orders from the chief signal officer of the U S army, and will establish headquarters at Sitka for the purpose of obtaining certain scientific data concerning the temperature rainfall etc which heretofore has not been accurately known. Six members of the Northwestern Trading Company will be appointed as assistants and will take regular observations. One assistant will be stationed at [illegible] which will be the extreme northwestern point, one at Portage bay and one at Cordova bay. Stations for the other three will be fixed after Mr McLean arrives in Sitka.

MYSTERIOUS AFFAIR.—While two sons of Mr Wash Allen of Brooklyn were out fishing on a [illegible] which was near his place they found a short distance above where the railroad crosses the creek a light colored overcoat and a stiff hat. The hat appears to be quite new but was badly crushed in one side as if it had been battered with a stone or cudgel. The coat was none the worse for wear and contained nothing which would lead to the identity of the owner. They were lying on the bank of the creek and [illegible] from the [illegible] had been there for [illegible] as the coat was wet from the rain [illegible] yesterday. The whole affair seems quite [illegible] and should be investigated by the proper authorities.

[illegible].—A letter received from this gallant young officer by his father F G Schwatka Esq of Salem bearing date of Governor's Island New York Feb 18th reports him in improving health having almost recovered from his recent injuries by a fall. He anticipated reaching Chicago on the 24th of last month en route home. He intended stopping at several points for a short time and may be expected home at an early day. His friends in this state will give him a cordial welcome on his return.

DEATH OF MRS STARK.—The sad intelligence has been received here of the death of the beloved wife of Hon Benjamin Stark. This estimable lady departed life from the effects of a paralytic stroke at her home in New London Conn on Sunday March 6th. Mrs Stark was united in marriage to her now bereaved husband in this city many years ago. She was a sister of Mrs Mead of Portland and a daughter of the late Capt Monithrop. Many of the early residents of this city will be pained to learn that Mrs Elizabeth Stark is no more.

DELEGATES ELECTED.—The M E Church at Albany has elected the following persons as delegates to the convention of church and Sunday school workers to be held in Portland on Tuesday and Wednesday of next week: J Dilion B R Freeland, F M Westfall and A S Nanny. To represent the Sunday school: Charles Rideout, W B Allen Miss Elva Dickey and Miss Lena Nanny.

THE METHODIST CONVENTION.—The Methodist convention meets at Taylor street Methodist church at 9 A M to-day. The regular session will however, be preceded by a half hour of devotional exercises. Quite a large delegation arrived on the west side train yesterday and a large number are expected by the boats and trains to-day.

RECOVERED.—The many friends of Capt William [illegible] the sturdy old pioneer of Oregon frontier life will be glad to hear that he has so far recovered from his recent attack of paralysis as to be able to again attend to his business affairs and with every probability of complete recovery.

STATED CONCLAVE.—There will be a stated conclave of Oregon Commandery No 1, Knights Templar at their asylum this (Tuesday) evening at 7 30 [illegible]. Work in the red cross degree. It is expected every Knight Templar will be present.

RESIGNED.—Mr. Bliss D Rickey who has filled the position of postal messenger between Portland and The Dalles for several years, has resigned. Colonel Skinner will temporarily fill the position until a messenger is appointed.

Y P A.—The regular meeting of the Young Peoples Association will be held this (Tuesday) evening in the vestry of the Baptist church. Everybody invited to come. Strangers made welcome.

PRISONERS.—The two men Lynch and McMillan, who were arrested at Astoria a few days ago charged with robbery in this city, were brought up yesterday by officer Joe Day.

NET RECEIPTS.—The net receipts of the entertainment and charity ball given at New Market Theater for the Good Samaritan Hospital are $780.

AMUSEMENTS.

THE CONCERT.—Artistically speaking the concert given last evening at New Market Theater by the Espinosa Concert Company must be recommended as a gratifying success.

The opening selection was a piano duet (Marche Triomphale (op 91 Gloria) by August Zech and M Espinosa. This composition was rendered with a finished effect by these artists.

Miss Jenny Landsmann made her initial bow before a Portland public, rendering in beautiful style "Sicilian Vespers" by Verdi. She was accorded a hearty reception and won a deserved encore and in responding sung the old and familiar Scottish ballad "Coming Thro' the Rye" charmingly.

Senor Espinosa favored the audience with Rubinstein's "Waltz Caprice" a wonderfully brilliant selection. He rendered the music with great spirit and an effect that won a deserved encore.

Miss Sylvia Gerrish, the contralto of the company next appeared before the footlights. The selection was one of Sullivan's ballads entitled "Will He Come." Miss Gerrish's voice, while doubtless very good in chorus music, is certainly illy adapted to solo singing, lacking in the essentials of expression feeling and cultivation. The lady should have occupied a position in the center of the stage and not at one side. She won an encore and complying, favored the audience with a simple ballad.

Part first concluded with a violoncello solo by Mr Ernest Schmidt. This gentleman displayed marvelous skill in performing on that instrument investing his playing with great feeling and expression. He was very heartily encored.

Part second consisted of a piano solo by Senor Espinosa (one of Saint Saens wierd and intricate compositions), "Ave Maria," by Miss Landsmann with violoncello obligato by Mr Schmidt, piano duet by M Espinosa and Mr Zech, a violoncello solo by Mr Schmidt and a vocal solo—"Holy Mother Guide his Footstep"—by Miss Landsmann and Miss Gerrish. The best selections of the second part were the solo by Miss Landsmann, the violoncello solo by Mr Schmidt and the concluding duet. Miss Landsmann created a very favorable impression and gave convincing proof that she is a vocalist of high order.

The company will appear again on Thursday evening.

BUSINESS NOTICES.

DESIRABLE REAL ESTATE.—Attention is directed to Mr J P O Lownsdale's advertisement in the appropriate column, of desirable property, both in the city and outside.

Great reduction has been made in the prices of suits and dolmans in order to make room for the spring styles. Mrs Pilger is now making extensive purchases in San Francisco for the present season.

In to-day's issue appears the familiar name to builders and others of Mr Clifford Coggins (formerly Coggins & Beach). His factory for turning out doors, sash, mouldings brackets and house finish lumber is situated in East Portland. He has in connection with his factory a dry house, which enables him to furnish his customers with thoroughly dry material. His long experience in his line enables him to know the wants of his customers and we bespeak for Mr Coggins a large share of the building trade.

NEW FIRM.—Elsewhere will be found the advertisement of Messrs Kelly & Dunne, manufacturers and refiners of lubricating and illuminating oils. Of the gentlemen composing this firm it is scarcely necessary to speak. Mr. John Kelly was for many years chief freight clerk with the O R and N Co in this city and is a courteous gentleman of very excellent business qualifications. His partner Mr D M Dunne was formerly connected with the firm of Hutchings & Co of San Francisco. Their place of business is No 8 Front street opposite the Bank of British Columbia.

ANNUAL SCHOOL MEETING.

TO WIPE OUT THE DEBT A TAX OF FIVE MILLS LEVIED

Recommendation to Build Four Additional Rooms to North School Voted Down Full Texts of the Reports etc

The annual meeting for school district No 1 was held in the court house last night. There was a fair attendance of tax-payers. The meeting was called to order by Mr H W Corbett president of the board of directors. The minutes of the [illegible] journal [illegible] were read and approved. Mr Northup [illegible] the following:

Directors' Report

To the tax payers of school District No 1 in Multnomah county

The undersigned in obedience to the established custom of the District herewith present their annual report for the fiscal school year ending this day. It has been the object of the Board to conduct the affairs of the District on business principles to secure wise economy in the administration of its affairs [illegible] have the schools worthy of your interest and support and to obtain the highest results for the time and money expended.

There are now employed by the District forty five teachers who have supervision of school rooms, one extra teacher in the High School, one drawing teacher, one superintendent and four janitors. The number of pupils belonging to the schools and receiving instruction to-day, is over two thousand. The whole number enrolled during the year is twenty five hundred and fifty. Three hundred [illegible] absent by reason of the prevalence of contagious diseases may be expected to return at any time during the present term as by the rules of the school any pupil absent for three consecutive days is dropped from the rolls. The work for the year in the whole has been satisfactory and has generally shown pains taking labor and progress. The interest in the schools we believe by the community at large was never greater than now. During the past winter even when the scarlet fever now fortunately abated—prevailed so extensively as to be almost epidemic the number present was never less at any time than eighteen hundred. The District has four school buildings of twelve rooms each forty five of these rooms are now occupied by sittings one for hearing recitations and one for instruction in drawing. The Harrison and Park buildings are new and serve well their purpose although the rooms of the Harrison building are somewhat small [illegible] by your direction upon the foundation of the old building.

Important changes were deemed necessary in both the North and Central buildings. It was no more than a matter of right that all portions of the District should be equally well served and that the health and comfort of the child from the north end of the town should have the same care and thought as the child from the south end. The changes were necessary too, in another view. In the North by reason of the building having received additions there were no through halls on either floor. Had a fire or other accident occurred in school hours rendering speedy exit necessary, and cutting off the use of one of the two stairways a panic might have occurred and serious consequences followed. Now with halls extending through the building on both floors, every teacher and scholar knows that exit is easy and speedy and the six hundred pupils of the school can be passed by either stairway without panic or commotion. The Central building was originally constructed with a chapel in the center on the second floor lighted only by sky lights—the flight of stairs being on the east. As the needs of the District increased this space was made into two rooms by a partition and used as sittings for pupils. Of course the light and ventilation were bad. A change has been made by causing the stairs to land in the center under the sky lights and by placing the school room on the east. Thus good light and air are secured and the convenience of the house has been greatly increased. Indeed both the North and Central buildings for general use now compare very favorably with the newer structures, and no parent whose home is within the lines of either school need feel that his child has less care than the child who attends at the Harrison or Park school. These improvements however have been expensive.

The Esmond and Cottier system of ventilation that last year was so successfully applied to the out houses has been applied to the school rooms in the North Central and Park buildings, and with equal success. The temperature of the room is rendered very nearly uniform and the pupil removed from the immediate locality of the stove has but little if any more heat than a pupil in a remote portion of the room. Experiments made with thermometers suspended by cords from the ceiling show that before the system was used at a point six feet from the floor the temperature was eight degrees higher than at a point three inches from the floor while now after its introduction the difference in temperature at these two points is, on an average, only a degree and a half.

The importance of good ventilation in our judgment cannot be over estimated. If a space of 400 cubic feet is allowed to each scholar all the air in the room must be changed every eight and one half minutes to remain pure. The change must be made without draughts or a lowering of the temperature.

BLOCK 26

The board has not yet disposed of block 26. An effort was made to sell it in the early part of the year but without success. Soon after property in that locality where it is situated began to increase rapidly in value and we did not deem it advisable to sell. We have recently been offered five thousand dollars. The highest sum offered up to the time of the school meeting [illegible] The District paid fifty five hundred when it purchased [illegible] eight years ago. We have been unable to exchange it for [illegible] eligible for school purposes south of Lincoln street. We did not think it advisable to exchange, giving two thousand dollars in addition [illegible] yards [illegible] south [illegible].

THE PUBLIC SCHOOL LIBRARY

We invite your attention to this worthy institution now well patronized and only needing money to increase its influence and power. It has been your custom to authorize an expenditure of one hundred dollars per year in its behalf. The law authorizes the board to expend fifty dollars per year for library purposes. This year, although never before the board construed your authorization to mean one hundred dollars in addition to the fifty and have directed the purchase of three sets of encyclopedias one each for the Harrison Central and North schools the set in hand being sufficient for the Park. We recommend an expenditure of two hundred dollars in addition to the fifty authorized by law. Even this will be only a fourth of the amount received from tuition of non resident pupils.

[illegible]

From state [illegible]	[illegible]
From tuition	1 500 00
From taxes delinquent	500 00
From tax 4½ mills on valuation of $10 000 000	[illegible] 000 00
Total	[illegible]

This will provide for a building of four rooms the necessity for which will be discussed under the head of "Future Wants of the District" and will leave an indebtedness of a little less than ten thousand dollars to be provided for at your next annual meeting.

We do therefore for the ensuing year recommend the levy of a tax of four and a half mills rather than two and three fourth mills for the current expenses of the schools and one and three fourth mills for existing indebtedness and building fund.

THE GROWTH AND FUTURE OF THE DISTRICT

The number of pupils enrolled during the first week in September being the first week of the fall and winter term during the last five years is as follows

In 1876	1300	In 1879	1334
In 1877	1[illegible]	In 1880	1[illegible]4
In 1878	1[illegible]		
Total increase since 1876			518
Average increase per year since 1876			[illegible]
Increase of 1880 over 1879			[illegible]

These figures are very flattering and satisfactory to us when viewed in the light of the increasing influence and prosperity of what we are sometimes pleased to call "The Rising Metropolis of the North Pacific" but viewed as taxpayers, while gratifying as showing the tendencies [illegible] held they have a different effect and show most conclusively that the rate of school taxation cannot be reduced for years to come. What of the future? We hear on every hand that the outlook of the town was never better than now. There is an increase in the value of real estate [illegible] in [illegible] the faith of direct railroad connection with the east in the immediate future. What does this mean for the schools? In the light of the last four years experience we answer that in the first week in September 1881 three hundred pupils more than in the first week of September 1880 will be knocking at the doors of our schools for admittance and demanding good seats and good instruction, in rooms which are well heated and lighted and ventilated and we must [illegible] that if one of that coming band [illegible] find he is not get what he asks and [illegible] the board of directors [illegible] will hear from it.

Where will these children be placed? The construction of the Park building has relieved the present needs of the southern part of the district and the great press will be in the northwest part. [illegible] A twenty four room building can be constructed on the west of the North building and upon the same block but detached so as not to interfere with the light of the rooms. This should be [illegible] first of next September. With this addition and the space [illegible] the Park building the wants of the district will be supplied for the present. But if the district [illegible] continues by the first of September [illegible] should be [illegible].

We recommend the erection of [illegible] structure [illegible] North [illegible] further improvements thereon.

[illegible]

[illegible] clerk Mr D W Williams [illegible].

THE PUBLIC SCHOOLS

[illegible] public schools must bear the sunlight of public scrutiny for every one as tax payer or as their patron or pupil has some connection with them. And this is well for them. Says an able writer:

"In our country where public sentiment is the ruling power that creates law and repeals it, no institution can stand which cannot bear the closest scrutiny, while those which do stand the test of time and command the confidence of the people are sure to endure. [illegible] The sharpest criticism unjust though it may be is more wholesome than indiscriminate praise. The blows which our schools get like the hammer of the ear [illegible] serve by the ring of the metal to prove their strength and not to destroy them."

But far more is demanded of our schools now than in the days of the past. The education which was ample for our fathers is insufficient for their sons who must be better equipped for the sharper conflict and rivalries of modern life or failure awaits them. Men who were relatively prominent fifty or seventy years ago could win no success to-day. The business and industries of the country and of the world involve far more application of science and skill than was demanded then. Our modern civilization requires enlarged opportunities of education for the whole people.

The criticism is made that our schools are graded and that they retard advancement and progress. The city cannot manage its schools as does the village. The graded school becomes a necessity where there is a large number to educate. It is true there is thoroughness which is proved by written examinations. It is the want of thoroughness that has heretofore been the great fault of our people and has given us the poor workman in so many lines of work. Any advance at the expense of thoroughness must give false results. Besides no scholar is retarded in our schools for he who is able to take two classes in the time of one can do so. The public schools are not for the boy of genius who comes comet like but once in a score of years to dash his brilliancy upon them. They are gauged for the average mind. The Franklins in science the Greeleys in journalism the Lincolns in statesmanship are great with or without education. A liberal expenditure for the public schools we believe to be wise and profitable. It has been well said that taxes raised for the purposes of education are like vapors which rise only to descend again in fertilizing showers to bless and beautify the land.

Said John Adams: "Laws for the liberal education of the youth especially of the lower class are so extremely wise and useful that to a humane and generous mind no expense for this purpose would be thought extravagant."

The public schools are the great conservators of the republic. They bring together all classes on the same level. Money and station nowhere count for less than in the class room. The great problem today is how to elevate and dignify labor. Educate the laborer, and the first step in the problem is solved.

Said Professor Agassiz: "After staying twenty five years in this country, I have repeatedly asked myself what was the difference between the institutions of the Old World and those of America, and I have found the answer in a few words. In Europe everything is done to preserve and maintain the rights of the few. In America everything is done to make a man of him who has any of the elements of manhood in him."

The work of the past year is done and upon you rests the responsibilities of the future. Respectfully submitted.

THE NORTHWEST.

Southern Oregon

There are 40[illegible] children of school age in the Roseburg district

Douglas county is petitioned to establish a county road from Roseburg to Coles valley

All of the school districts in Douglas county have reported to the county superintendent except Nos 15 and 53

Mrs Kellogg, one of the first pioneer women of southern Oregon died at her residence near Elkton recently at an advanced age

James M[illegible] of Elkton while hunting in the mountains last week lost his reckoning and had to stay out all night in the snow

The farms on Coos river are in a terrible condition as the result of the late floods, some of them being covered to the depth of two or three feet with sand

H S Chapple has about completed arrangements for the purchase of a portable sawmill to be used in the vicinity of J J White's residence on south Deer creek

The records at the county clerk's office of Douglas county for the month of February 23 deeds and patents representing $15 000 worth of land and 11 mortgages representing $3,8[illegible] There has been filed 15 chattel mortgages representing $3 530

Western Oregon

Wild oats have been growing the entire winter in the vicinity of Sheridan

The total rainfall at Albany last month was 13 08 inches number of rainy days 18

The supper and fair given by the Ladies Aid Society of Albany last week netted $125

Mrs Ann E Loat died at her home in Scio last week after a short illness aged 74 years

Albany Democrat The report is that the bonds of the Yaquina railroad have all been sold This being true work on the road will commence very soon We have been assured that work will be commenced just as soon as the weather will permit

Eugene Journal This county is destined to get rich off of the fees which the new law requires the clerk and sheriff to collect During nearly two months since the law has gone into effect the clerk has collected less than a hundred dollars and the sheriff less than ten dollars while the salary of the clerk is $150 per month and that of the sheriff $1[illegible] per month besides the cost of deputies

W R Cann of the Albany city stables lost a gold watch last June valued at $100 He had about that time hauled to his stable a large quantity of manure and deposited it in piles about his fields During the last high water this manure was distributed over the ground and one day last week the watch was found where one of the largest piles had been A jeweler examined it and pr[illegible] no need [illegible] highly cleaned [illegible] ticked away as though nothing had happened

One night last week three prisoners Harlan McCreary and King escaped from the jail in Roseburg, breaking through the floor and digging out under the building The floor being a poor one and there being no foundation to the building the work was quickly done Harlan is a desperate character as is also McCreary All three were imprisoned for larceny Wednesday evening King returned and gave himself up He says he did not want to leave but the others compelled him to accompany them McCreary has been captured, but at latest accounts Harlan was still at large

PETITIONS TO CONGRESS

A Greatly Needed Reform—Striking the Tap Root of the Evil

On the 2d day of last August the British parliament passed an act against the payment of advance wages to seamen This act goes into operation on the 1st day of August 1881

The Philadelphia North American says This law will prevent British sailors from being skinned out of their money by boarding house keepers before it is earned The object is to keep the poor sailor from being swindled as far as possible And we may add it will take away the principal motive which now actuates sailor boarding house keepers when they apply all their wicked devices to induce seamen to desert their ships

The remedy will not be complete until the other leading maritime nations enact a similar law In view of this fact Capt Daniel Tracy well known in the United States in connection with Sailors Homes has been working for some time to secure the passage of an act of congress against the payment of sailors wages in advance He has had an act prepared ready for presentation modeled on the one above mentioned

Captain Tracy has secured to his petition to congress the names of the leading merchants of New York and Philadelphia

Alluding to this fact the Nautical Gazette published in New York February 1 1881 says This petition should bear the signatures of our leading men in every seaport from Galveston to the borders of Maine and the Pacific coast should do its duty in this matter as well If the advance wages system is abolished then the low groggeries and brothels many of which are licensed as sailor boarding houses will be obliged to shut up shop Men who really have the interest of the sailor at heart ought to aid Captain Tracy

Copies of this petition forwarded to Chaplain Stubbs have been placed in the hands of the U S shipping commissioners and at the rooms of the merchants exchange Our merchants are especially urged to attach their signatures whenever they can that the petitions may be forwarded to Washington

BENEFACTORS

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies the most wonderful medicine was produced which would cure such a wide range of diseases that most all other remedies could be dispensed with many were skeptical but proof of its merits by actual trial has dispelled all doubt and to day the discoverers of that great medicine Hop Bitters are honest and blessed by all as benefactors
